FDA / CGMP COMPLIANT POLYMER FLOOR & WALL SOLUTIONS...

Flowcrete Americas provides a wide range of hygienic, durable and chemical resistant polymer floor, wall and coving solutions that are compliant with FDA and CGMP regulations surrounding the safe and sanitary design, construction and maintenance of pharmaceutical and medical research facilities.

Antimicrobial treated,
ISO 22196 compliant &
HACCP International certified

Adjustable positively textured
profile to minimize the risk of
slip and fall accidents

Contributes to LEED credits
in Materials & Resources and
Indoor Environmental Quality

Protects against a wide range
of aggressive inorganic and
organic chemicals

Temperature resistant to 350°F
and suitable for hot water and
chemical washdowns

Seamless, monolithic surfaces
that are easily cleaned and
cost effective to maintain

Part of
The Euclid Group

Floor & Wall Systems for Pharmaceutical Facilities

FLOWCRETE SYSTEM*	THICKNESS	DESCRIPTION
Flowfast Flakes	120 mils	An eye-catching, wear resistant and fast cure MMA flooring system with a decorative flake finish.
Flowfresh SRQ	1/4" - 5/16"	An antimicrobial treated and HACCP International certified slurry broadcast cementitious urethane mortar with quartz aggregates
Flowshield Quartz	1/8"	A high-build, self-levelling and pigmented epoxy floor system with a decorative, hygienic quartz bead finish.
Flowgard WW	6 - 8 mils	A high performance and pigmented sealer for use on walls and ceilings with an optional glass fiber reinforced lining available.
Peran STB Broadcast	120 mils	A decorative, hard wearing, double broadcast epoxy floor system containing colorful quartz aggregates.
Peran STB	1/4"	A decorative, hard wearing epoxy flooring system containing colorful and durable quartz aggregates.
Flowcoat CR	28 - 30 mils	A 100% solids, high performance and highly chemical resistant epoxy floor coating system.
Flowchem VE RC / BC / GL	40 - 125 mils	A horizontal and vertical roller applied vinyl ester coating range with excellent chemical resistance to a number of highly concentrated and aggressive solvents including CIP liquids.
Flowfast Industrial	200 mils	A hard wearing, chemical resistant and fast cure MMA flooring system with a matte colored finish.
Flowtex	3/16" - 1/4"	A trowel applied epoxy floor mortar, with excellent durability, abrasion resistance and ease of application.
Flowcoat HTS	25 mils	A durable polyurethane floor coating system characterized by high abrasion and chemical resistance.
Deckshield ID	40 mils	A flexible polyurethane deck coating system for use on intermediate decks of multi-story parking structures.
